MRS. ROBINSON'S CERTIFICATE.

Vernon, Trumbuil Co., May 1st, 1843.

This certifies that I have been in very poor health for years, and found little or no relief after employing a number of phyticians. My disears was Proinpsis Uters. I had been reduced by that and Plauror Albus until I had become alcerated to a considerable extent. By the advice of Dr. G. W. Bushnell I procured and took six bottles of Marshall's Uterine Catholicon which enabled me to attend to my husband in his last sickness until he died, which was about a year since. I have taken three bottles since his death, which has made me able to labor and support my family of three children. The Catholicon has nearly retred me to health. It is the only thing that has initigated my suffering for which I fell very grateful.
